

# Multi-cross lasers 4x360° **CL4D-G / CL4D-B**

**Multipurpose lasers 4x 360°**  
four laser planes (2xV, 2xH)

**More power**  
super visible, green laser beam

**High accuracy / Long range**  
1 mm/10 m, 30 m (70 m with sensor)

**Electronic compensator**  
effective vibration damping

**Damage resistant**  
new, reinforced housing (IP54)

**Rich standard set**  
thanks to accessories  
you will do many more tasks

**Measurement solutions**  
for construction

**NIVEL**  
SYSTEM

## Multi-cross lasers CL4D

Necessary at the construction site

Nivel System **CL4-G** - multi-purpose **4D** cross laser with the super visible, green laser beam. Equipment presents on the wall, perfectly leveled reference lines (horizontal and vertical), which support all finishing and general construction works. The laser has 4 laser head, thanks to which the user can work with four laser planes - in the range of 360 ° each. The simultaneous display contains the configuration of right angles, which is available e.g. in construction and finishing works (e.g. tiling). The unit offers electronic compensator, who is more efficient in comparison with magnetic one. Blocking the compensator means that the instrument can be tilted and use diagonal lines. Built-in 1/4" thread includes some and stable instrument mounting on a tripod, adapter or laser shelf. Reinforced rubber elements of the laser housing protect against damage as a result of impact and shocks.

### CL4D-G CL4D-B

<b>Laser type</b>	green 515 nm	blue 505 nm
<b>Accuracy</b>	±1 mm / 10m	
<b>Beam display/ planes</b>	2 vertical 360° 2 horizontal 360°	
<b>Working Range/ with detector</b>	30 m (70 m with sensor)	
<b>Leveling range</b>	±4°	
<b>Protection class spray water/dust</b>	IP54	
<b>Power supply</b>	Li-ion (7,4 V; 2600 mAh)	
<b>Operating temperature</b>	-10° to +50°C	
<b>Tripod thread</b>	1/4"	
<b>Dimension</b>	125 x 75 x 140 mm	
<b>Net weight</b>	0,9 kg	

### Equipment

4D Laser	Laser glasses
Laser target	Li-ion batteries
Charger + adapter	Laser lift
Laser adapter CL-BR	Carrying case
