SYSTEM

Laser sensor RD700

This is universal sensor for working with rotating laser levels in two versions with red and green laser beam. As it is digital sensor, it has numeric evaluation.

RD700

Capture height	90 mm
Numeric readout height	80 mm
Reception angle	±45°
Detectable spectrum	450 nm – 800 nm (red/green laser beam)
Accuracy mode	1.0 / 2.0 / 5.0 / 10.0 mm
Protection class	IP67
Automatic shutoff	after 30 min
Power supply	1 x AA
Operating temperature	-20°C - 50°C
Dimensions	135 x 69 x 25 mm
Weight	0,19 kg
